Infant Feeding Product Guide

Welcome to our first ever infant feeding guide. Drawing on my own personal experience feeding 6 babies and supporting thousands of women in feeding their babies, we asked the Leakies for their input on what products, tips, and resources helped them in their infant feeding journey and put together this guide to help you in your own journey. This isn't an exhaustive list, really just some highlights to get you started and while we don't think there's such thing as any one “best” anything, we hope to help you figure out what works best for you. Whatever your journey in feeding your baby, take each step confidently knowing that you are the best person for feeding your baby. You've got this and we're honored to support you along the way.

When it comes right down to it, all most moms really need for breastfeeding is a lactating breast or two and the baby. But there are some products that can make it more comfortable, a little easier, or possible for your lifestyle needs.

a. Ardo Calypso Double Plus Breastpump  b. Earth Mama Angel Baby Nipple Butter  
c. Nursing Bras Express Pads  d. Lansinoh Disposable Nursing Pads  
e. Fairhaven Health Milkies Milk Savers  f. Bamboobies Breast Pads  
g. Ameda Purely Yours Pump  h. Lily Padz Silicone Pads  
i. Kiinde Twist System  j. Evenflo Advanced Double Electric Breast Pump
Calypso Double Plus Breast Pump
{Ardo}

Whisperingly quiet, a total of 64 vacuum and speed settings, flanges in 3 sizes, and massage inserts, this Swiss-made pump is surprisingly comfortable and comes with a comprehensive warranty of 400 hours (or a year). A reliable pump for the mom who needs to pump several times a day.

Nipple Butter
{Earth Mama Angel Baby}

Find relief and healing for your nipples (and chapped cheeks, cuticles, dry elbows, you name it!) with this nipple butter that is so safe you won’t need to wipe it off before feeding baby. This clinically tested soothing balm developed by an RN herbalist isn’t sticky and the toxin-free formula is trusted even with the most fragile babies in some hospital NICUs.

Coupon Code: “Leakyboob20” for 20% off regular orders (no gift sets or bundles)

Pads
{Nursing Bra Express}

Shaped for the breast, trim, and soft, these breast pads are ideal for the light leaker and you’ll never have to worry about them sticking to your nipple. The seamless designs makes them disappear under clothing.

Disposable Breast Pads
{Lansinoh}

Cottony and quilted, these absorbent breast pads are trim enough to not be obvious even with your favorite t-shirt bra. Keep them from slipping about with an adhesive strip and they’ll stay clean even in the diaper bag thanks to their individual wrapping.
Milkies Milk Savers
{Fairhaven Health}

When one side lets down while you’re feeding your baby on the other, collect the liquid gold to use for later. BPA free, slim for discreet use, and with a protective case that doubles as a carrier, don’t waste another drop of your breastmilk.

**Coupon Code:** “leakyboob” for 10% OFF

Breast Pads
{Bamboobies}

As soft as a cloud and can hold just as much liquid, these reusable pads prevent leaks with an effective backing. The heart shape design isn’t just to be cute, it allows the pad to contour to your unique breast shape without buckling. The thicker overnight pads can last the night.

Purely Yours Pump
{Ameda}

Custom control for speed and suction allows you to select the best levels for your personal comfort and flow and to create your own multi-phase pumping experience. A closed system means your milk has no chance of getting into the the pump and with 7 flange sizes available, you’re sure to find the right fit.

Silicone Pads
{Lily Padz}

Designed to keep the breast from leaking, these silicone pads work by applying just enough pressure to stop your milk from letting down. After the first couple of weeks, these little pads work so milk stays in your breast.

**Coupon Code:** TLBPADZ for 10% OFF the total purchase
**Twist System**
{Kiinde}

Pump directly from any pump with this leak proof twist locking system that makes it easy to organize, store, warm, and if your baby likes the included nipple, feed without ever having to transfer your milk. **Coupon Code: TGTLB6 for $20 off the complete Twist Gift Set (and 50% off shipping)**

**Leaky Tips**

Get the Wonder Weeks App on your phone, it doesn’t have all the answers but you can see what’s totally normal for their developmental stage. ~Ashley

Get a comfortable chair, like a La-Z-boy, make sure you sit in it. Put it wherever you’ll be feeding the most and stock it with everything you need in easy reach. Don’t worry about matching your nursery, think about how you’ll be sitting in it all the time. ~Brandy

Follow your baby's lead and as long as they have plenty of wet diapers and are developing normally, enjoy. Stay in bed with your baby right there on your chest and breathe deep. It goes fast. ~Jessica

Ask for help sooner rather than later. ~Kate

e. Kiinde Kozii  
f. Pura Stainless Pura Kiki  
g. OrganicKidz Stainless Steel Bottles  
h. Innobaby Bottle Warmer
Natural Flow Bottle  
{Dr. Brown’s}

Vented flow design helps with paced flow feeding for the caregiver to follow baby’s lead. Some babies have an improved digestive experience with this bottle design and the bottles fit most breast pumps. Able to remove the vent as needed according to baby’s growing needs.

Glass Bottles  
{5 Phases}

An innovative glass bottle design with a protective BPA-free plastic sleeve. Vented silicone nipples, removable glass insert, and reusable beyond the bottle-feeding stage.  
**Coupon Code:** “TLB10”

Milk Tray  
{Fairhaven Health}

Freeze your breastmilk in 1 ounce increments so you defrost directly in the bottle of your choice and use only what you need for a feed. BPA-free, save storage space and avoid breastmilk waste with these easy to use trays.  
**Coupon Code:** “leakyboob” for 10% OFF

All-in-one Bottle feeding set  
{Thinkbaby}

This set includes everything for bottle, sippy with handles, and straw top options from 0-4+ years with a nipple design that depends on baby’s suction. Leak proof, these BPA/pthalates/lead/PVC/PET- free bottles offer options depending on the needs of your little one.
Pura Kiki
{Pura Stainless}

Completely plastic free, this stainless steel bottle grows with your baby. Compatible with many other bottle nipple brands, find what works for your baby and move on to sippy tops and eventually water bottles when your child is ready.

Stainless Steel Bottles  {OrganicKidz}

Scratch resistant, durable stainless steel bottles that transition with your babe from baby bottle to sippy cup, to water bottle. The thermal bottle will keep contents hot or cold for more than 6 hours and fits most breast pumps. Both narrow neck and wide neck options.

Bottle Warmer  {Innobaby}

Versatile and useful long beyond the baby stage, this bottle and food warmer is a safe, portable option that doesn’t require batteries, electricity, or microwave. Safely heat breastmilk, formula, or food on the go.

Kozii
{Kiinde}

Developed by two dads who wanted a faster, safer option for warming up breastmilk without damaging the molecular structure of the milk when mom was at work. The innovative and easy-to-use design follows the CDC and USDA guidelines of warm flowing water to heat breastmilk.
Leaky Tips

When my baby refused a bottle when I was at work, we found that warming up the nipple itself by running it under warm water before using it would help our baby accept it. ~Krista

Knowing about how big my baby’s stomach was helped me relax about how much he was eating, they’re smaller than you think! ~Amanda

Wide nipple base may not work for your breastfed baby, it has to be something they can manage and I’m not sure I could flare my lips around some of the wide based nipples we tried! ~Rebecca

Having the formula in completely divided compartments in the diaper bag meant my daughter was getting only exactly what she was supposed to each time. ~Jenna

Invest in a good bottle brush that works for the bottles you use and get a drying rack. You’ll wash a lot of bottles, a lot, a lot, a lot of bottles. ~Shannon

Don’t buy a bunch of bottles, wait and see what type your child prefers. ~Sharon

Adult/Baby Ddrops
{Ddrops}

Our lifestyle changes mean we don’t get as much sunlight for our bodies to make Vitamin D and this results in fatigue and health concerns. Adding these tasteless and easy to take supplements can be a parenting game changer and, if you’re a breastfeeding mom, be good for your baby too.

Hey Leakies,
We hope this guide helps you find the tools and strategies that help your confidence grow in your parenting. While it is often breastfeeding that brings us together, it isn’t our passion. We may come together around breastfeeding but what keeps us together is the support and community. It is our mission to support people over any feeding methodology, as long as babies are being fed and loved and parents are confident in their ability to care for their children, we consider it a success. Happy feeding!
